REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

No motivation or direction is provided in the prior art to lead a person having ordinary skill in the art to define a pressure sensitive adhesive composition based on (meth)acrylate (co)polymer having at least two-phase domain structure and having outgassing level of less than 10mg/g. There is no motivation to combine the teachings of Pakusch'6,552,116 and Haak'6,126,865 since references do not disclose the outgassing level specified in the present claims.

2. Claims 1-6 and 13 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 7-12 and 14, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 7-12 and 14 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 06/10/2003 is hereby withdrawn.

The terminal disclaimer filed on 09/21/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of

Application serial No. 10/077,658 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The obviousness-type double patenting rejection of claims 1-6 and 13 over claims 1, 2 and 11 of copending application No. 10/077,658 is withdrawn in light of a proper Terminal Disclaimer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
